

OCTOBER SOMMELIER'S PICK RIESLING

Riesling is an aromatic grape variety displaying flowery, almost perfumed, aromas as well as high-acidity. It is used to make dry, semi-sweet, sweet, and sparkling white wines. Riesling wines are seldom oaked and therefore a great option for guests who want something completely different from the traditionally well-known Chardonnay based wines. The grape variety is mostly planted in Germany, Austria, Alsace and parts of Australia. Riesling wines have grown in recognition in recent decades and therefore become one of the most popular varieties in the world.

DISH OF THE MONTH

OVENBAKED ARTIC CHAR

Grilled pointed cabbage, char roe, smoked butter sauce,
crispy chicken skin
